

QUICKLUB P203—15litre

JSG Industrial Systems, master distributor of the respected Lincoln lubrication range, is pleased to announce the introduction of a new addition to the Quickclub grease pump family – complete with a huge 15 litre reservoir able to hold up to 13.6kg of grease.

The 15 litre reservoir has been introduced to meet the demand for large volumes of lubricant driven by an increasing trend for larger equipment maintenance intervals. Mining, construction, agricultural and other mobile equipment in particular are increasingly being fitted with components that allow machines to be in service for longer periods without scheduled maintenance.

JSG Industrial Systems: protecting your investment

Features:

- The 15 litre 203 pump reservoirs are equipped with a stirring-paddle mechanism to prevent separation when not in use for long periods.
- The 15 litre 203 pump also comes with special reservoir support brackets and base to ensure that the extra weight and height are adequately adapted to countering any off-road vibration.

Specifications:

- Part numbers: 02-644-41045-2 (P203 15XL, no timer)
02-644-41046-2 (P203 15XL, with timer)
- Operating temperature: -25 deg C to 70 deg C
- Number of outlets: 1, 2 or 3 (option)
- Capacity: 15 Litres
- Refilling: via hydraulic lubrication fitting or from top
- Lubricant grade: up to NLGI No. 2 and some mineral oils*
- Weight: 9.2 kg (packed with connector cable)
- Output: 2.8cm³/minute (with 6mm piston diameter)
* refer to owner's manual for more detail
